15th September 2009: Revision of “The Week”
30th September 2009: Knowledge- based Development Week

You can send directly to Alicante Chamber of Commerce, Industry and Navigation, “Calle San Fernando, Nº 4, 03002 Alicante-Spain” or to our e-mail: info@camaralicante.com or to e-mail: info@ucef.com , both for the attention of Fernando Casado or to e-mail carolina@aitacite.com

I hope that will be with us at this event Latinoamerican-Mediterranean where you can have the opportunity to contact, listen, exchange opinions about one issue currently so necessary as the “Transfer of Knowledge” with entrepreneurs, academics, as well as private and public institutional delegates.

The papers will have to include contents of the themed modules:

The motto of the Conference is “The Transfer of Knowledge” which will include different themed modules presented by scientific in areas of Knowledge, researchers transfer, the Creative and the Application of Innovation with success.

The call for paper is open from 31st March.

Structure:

The conference motto is “Knowledge Transfer” with different themed modules as the following:

- Building Entrepreneurial Capacity of people organization and territories for the applications of Knowledge and Innovation.
- Open University. As the origin of Knowledge the universities must be opened to people, organizations and territories.
- Science Parks and Poles of Innovation and their “Knowledge Transfer” policy. This new Knowledge transfer is created by the proximity of people through the creation of a knowledge cluster with “connecting brains”.
- Social Networks of knowledge. A new topic with news findings and important tools.
- Knowledge Cities, the city as a magnet of knowledge. How can the universities connect with public institutions and organizations to convert the Knowledge Cities as an attraction of talent.
- Capital Systems ®. Analysis of the organizations , institutions and territories.
- Community Intellectual Capital. To discover a “wind-wind” relationship between university and enterprises.
- I.T. for K.M. The Information Technologies for the Knowledge management get of I.T. solutions.
- Alicante magnet Territory
- Ethical and legal aspects of the Transfer of Knowledge and the entrepreneurships.

This ideas make up the call for papers under the generic motto “The Transfer of Knowledge”.

Your sincerely,

Fernando Casado Bergasa
Coordinator of Knowledge-based Development Week
